

ALBA ARENAS

FRONTEND DEVELOPER

 [Web Portfolio](#)

 albacecilia10@gmail.com

 Monterrey, Mexico.

ABOUT ME

As a frontend developer, I combine my passion for design and technology to create beautiful and functional web experiences, focusing on user-centered design and creating intuitive interfaces. In addition to my work, I have taught art, which has helped me develop skills such as empathy and understanding the needs of others.

EDUCATION

FreeCodeCamp

JavaScript Algorithms and Data Structures

Platzi

Frontend Developer

Udemy

The Web Developer Bootcamp

SKILLS

Sass /scss

Tailwind

React JS

Figma

UI Design

Web Responsive Design

Web accessibility

Communication Skills

EXPERIENCE

- Creating Single Page Application, Responsive Design
- Experience developing games with mathematical logic, collision detection and object animation, using JavaScript canvas to create custom graphics and game elements, adjusting them to fit the user interface. In addition, I have implemented custom events and used localStorage to store relevant game data in previous projects.
- Experience manipulating the DOM with JavaScript, selecting elements and updating their properties.
- Creating animations using CSS, including complex effects such as parallax. In addition to CSS, I have also used libraries such as React Motion to create dynamic and engaging animations for web projects. Through my work, I have gained expertise in key animation techniques, including easing, timing, and keyframes, and I am adept at using these techniques to create visually stunning and responsive animations that enhance the user experience
- Build web applications using React and TypeScript. Using React Router to build efficient and intuitive page navigation systems, and I have worked with the command-line interface, allowing me to effectively manage and deploy web applications from the terminal.

CERTIFICATION

Digital Marketing Fundamentals

Google Activate

2022

SEO, Web Analytics, Mobile World Possibilities

Frontend Developer

Platzi
